Cultural and Political Roots, – Flexible specialisation vs post Fordism: Bulletin of Economic Research  
Though British manufactures dominated European and transatlantic markets  
Population and Development Review The transformation of the economy For a few decades in the 19th century British manufactured goods dominated world trade.  
Welfare effects of British free trade: In centralising and strengthening the power of the state, Britain followed the basic outlines of mercantilism, a policy which was also pursued by most other European nations. An unprecedented range and variety of products thus came within the grasp of a new mass market both within Britain and overseas.
