A Guide for the Perplexed alongside research monographs on
systematic theology, ecclesiology, liturgy and related
theological themes. For example, Drinka emphasizes that the
most striking and important claims about language contact is
that it is social factors that drive change rather than
internal, formal ones but also that these social factors are
not always predictive nor do they always head in the direction
of linguistic simplification.

It is disappointing that the chapter relies heavily on
explaining lexicostatistics and binary perceived similarity
rather than including more recent computational work on
exploring subgrouping, such as computational comparison of
kinship systems among subgroups, loanword rates, or numeral
systems. This collection includes 34 monographs from the
Linguistics list, with titles covering applied linguistics,
theoretical linguistics, TESOL, language studies and
stylistics. Bloomsbury's Philosophy collection includes 50
monographs and supplementary titles, covering ethics,
aesthetics and both the analytic and Continental traditions.
