Animacy and visual effects in German sentence production. Und das gilt auch

According to Wundt, the representations *Vorstellungen* that constitute the As these relationships are laid out below, it must always be remembered that although these four areas—psychology, philosophy, natural science, human science—are irreducible, this irreducibility is Sprachpsychologie (German Edition) a metaphysical or ontological one, but merely one of explanatory function and commensurate methodology. Now while Wundt is forced to speak of representations and representational acts as distinct, he is nevertheless clear that they are merely different aspects of a single flowing process.
