Use their strengths and honor their gifts. We all have beliefs, biases and assumptions that can interfere with our rational thinking at times and cause us to overreact to situations. According to Tony Simons, Harvard Business Review, the more associates feel trust in their bosses, an emotional response, the higher the profits for the organization. Ultimately, emotional intelligence is at the heart of highly collaborative teams. His research has shown that just like individuals, the most effective teams are the EI ones and that any team can improve and attain higher levels of EI. Emotional Intelligence training can teach you how to use emotional intelligence for everything from organizational climate to increased profitability.

Not only understanding but embracing these differences. True empathy requires that we be able to see beyond our own experience. Some of the inferences are listed below:
