At age 20 and presenting with a psychotic episode doctors diagnosed her with "schizophrenia. What I find most impressive about Susan Johnson's memoir is that she has put together such a riveting narrative. Beyond these immediate goals, by being open our journeys with mental illness, those of us who have survived and thrived can be beacons for the next generation of sufferers.

That same attitude, quality or competence to face difficult problems and circumstances, helps us to understand life in a healthier and more positive way. I was only 12 inbut I remember hearing the first rumblings of the gay movement, from the whispers about Rock Hudson and Freddie Mercury to the roaring parties of Fire Island.
