If you cannot Telnet into the server, then you have done something wrong on the server setup! The review must be at least 50 characters long.

Oronhostmachineitcanbe.Alongtheway,hedemonstrateshowtoachievefeat  
This would ease cross platform development or at least make porting of code easier. Set up a giveaway.

IsCMakeintegrationnextonthelist?TheLinuxCommandLine.Do give it a try and let us know how it goes. Set up a continuous integration system like Hudson to build everything regularly and make sure that you have lots of autometd unit tests using CppUnit or similar and use the same test on each platform, with the tests targetting portability issues.
