Bangladesh is by no means a high emitter of carbon, but it is nevertheless one of the countries most critically affected. Economic development in the poorest countries often makes better progress when women become involved in, and take a lead in, development projects.

Women and Climate Change in Bangladesh 1st Edition Margaret Alston December  
Bringing together for the first time sexual and industrial labour as the means to understand gender, work and class in modern Japan and Korea, this book shows that a key feature of the industrialisation of these countries was the associated development of a modern sex labour industry. It questions the meaning of democratization for women and their relationship to national sovereignty within the new Indonesian...
